

**IRB TRAINING PROGRAM REQUIRED**  
**FOR ALL VSU FACULTY, STAFF, OR STUDENTS**  
**CONDUCTING RESEARCH USING**  
**HUMAN RESEARCH SUBJECTS**

All individuals conducting research using human research subjects, whether faculty, staff, or students, must complete the training provided on-line through the VSU Institutional Review Board (IRB).

You may access the training program at: [www.citiprogram.org](http://www.citiprogram.org)

The required modules are numbers 1 through 6. These are modest in size, usually 4 to 6 questions for each module, and may be completed relatively quickly. You may retake the modules until you have passed them satisfactorily, with at least an 80% correct score. A certificate will be issued and the VSU Office of Sponsored Programs & Research Administration will be notified of your success in completing the training. No IRB review will be processed without this certificate of satisfactory completion.

Contact the IRB Administrator at 229-333-7837 (E-mail: [irb@valdosta.edu](mailto:irb@valdosta.edu)) should you have any questions.
