considered cheating. If caught, you will earn a zero for this exam, and this zero will be calculated in your final grade (it can't be your dropped exam).

- x **BlazeView (BV) Online Quizzes (~100 points total):** To help you prepare for lecture exams, multiple choice quizzes with 5-10 questions will be given throughout the semester. All BV quizzes (all 1st and 2nd attempts) count towards your final grade. You will complete these quizzes 2 times, and both scores will count towards your total points earned. Why take the quiz two times?
 - Purpose of the 1st attempt: to figure out the answers
 - Purpose of the 2nd attempt: to practice recall of the information

BV Quiz Grading Explained: For the first attempt, each question is worth 1 point, and for the second attempt each question is worth 0.25 points. Scores on both attempts count towards your final grade. The 1st attempt is worth 4x more than the 2nd attempt. Take your time to go over the material and answer the questions correctly. The 2nd attempt is very low stakes to for you to see how much you remember.

miss quizzes because if you miss 5 quizzes because of not-so-good choices, and then you do have a legitimate reason (excused illness, university function, etc.), you will still not be able to make up the quiz.

Lecture quizzes will have various formats including, but not limited to, closed book, open book, and group quizzes. Quizzes may also have confidence components included with each question. The confidence component is designed for you to think about your mastery of the subject and will ask you if you are “Confident” or “Not Confident” with your answer. Students who are accurate and confident in their knowledge and understanding of the material will earn the most points, and students who are wrong, but think they are right will earn the least amount of points. Essentially, the metacognitive component of the quiz should increase the confidence in students who do know the material, but may not be confident in their understanding, and to help some students who are overly confident in their understanding of the material recognize that they are not as prepared as they think they are. The point values for your answers will be: 2 pts: Right answer and confident, 1 pts: Right answer but not confident, 0.5 pt: Wrong answer and not confident, 0 pts: Wrong answer but confident

Academic conduct: Cheating and plagiarism will not be tolerated and may result in a failing grade for the assignment, exam, or your final grade. It is your responsibility to read and understand the directions of all assignments, quizzes, and exams. If you have any questions, ask before the due date.

Privacy Act (FERPA): The Family Educational Rights and Privacy Act (FERPA) prohibits the public posting of grades by social security number or in any manner personally identifiable to the individual student. No grades can be given over the telephone, but I do post grades in BlazeView.
